Hi, I don't know if this is the same for one click installers for other games, but it seems that the download count display for Celeste mods does not take into account downloads using a click Everest installer, only those made through the manual download button. I have few mods for what I wanted to share. Thanks. Will wait :) Bananite Hey guys, I was on the Smash Ultimate thread, and there are some racist things going on that I think you should take a look at. The moderator of that thread tolerated it, so I thought I'd contact you. Context is a skin for the game that Indians themselves requested be removed from games due to being offensive, as Nintendo themselves obliged, and the OP tries to get it back. I reported it twice and was turned away, so I thought I'd contact you myself. Thanks Bananite I can't download dimension mod.zip and I really wanted it for my iPhone@ Bananite Page 3 GameBanana shows no ads to members. Sign up now! Ads keep us online.
